May 2018. The wines of CLUNIA receive excellent ratings from Guía Peñín 2019.

From vineyards planted at an altitude of approximately one thousand meters above the sea level, these are rare pieces that lovers of extraordinary wines crave to have.

A unique terroir with a harsh climate where the soils conspire to make outstanding wines, Clunia stamps its particular seal on the Malbec 2015 which has just been launched on the market, as well as on the emblematic Tempranillo and the special Syrah.

Clunia's incomparable character has been praised ever since the project was started in 1999 by the most recognized wine critics and international contests. To name just a few examples, the worldwide- influential The Wine Advocate (Robert Parker), Wine Enthusiast magazine, AkataVino Sommeliers of Spain (CIVAS) and Tempranillos al Mundo competitions among others, in addition to Guía Peñín's admiration.
